Hey Dave,

Here's a revised version. Please just double check it. I made all your changes except 2: the pteropod studies in OR waters were limited to NOAA data, so I didn't add "among others" there, and one place where you had "marine biology" I changed it to narrative aquatic life. Lori said she didn't feel it needed another pass through with HQ or ORC/OGC since it was for the RA, so I think you can send it as is, if you are comfortable with that. It does also include her edits, Jim's and Tom Glazer's already. Thx.

jill

Subject: potential edits

Hi Jill,

Thanks for the hard work. See my review edits. If you are okay with these edits in that they are still accurate, I'll take responsibility for not going back to check them with HQ or legal. thanks
